—They Must Find Heads This Week

This week the decorators begin their work of making the inside of The When as nice as the outside. Next week they will reach our hat department with

their work. They'll want elbow room. The hats must be moved. So there's a slashing of

prices to start them along. Until next Saturday night the public is invited to come and get hatted at these figures:

Straw Hats

Shansies, Shinkees, Manillas, split Yachts and other fashionable braids in correct shapes—stiff or roll brims—

Were \$2.50 and \$3—this week \$1.47 buys them.

Were \$1.50 and \$2—this week 97c buys them. Were \$1-this week 69c buys them. Were 75c-this week 39c buys them. Were 38c-this week 23c buys them.

Stiff and Soft Hats

Correct Derby and Tourist shapes—many shades—lightest weights—very cool—many men like them better than straws—
Were \$3—this week they're \$1.97.
Were \$2 and \$2.50—this week they're \$1.47. Were \$1.50-this week they're 97c.

Not in a long while-if ever-has such supreme goodness in head-

gear been offered at such shadow-like prices.

WEST VIRGINIA STRIKERS INTIMI-DATING NONUNIONISTS.

Governor MacCorkle Says the Situa-

tion Is Serious-Wages Raised by the Pullman Company.

CHARLESTON, W. Va., July 6 .- Governor MacCorkle's representative at Elkhorn wired demand on the sheriff of McDowell county for protection against a threatened outbreak of miners in that region and the sheriff has verbally admitted that he is unable to give it. He has, however, made no demand on the Governor for military. is in constant expectation of such a demand. The Governor stated to-day that while the men never, during the last strike committed any infraction of the law, yet, within the past few days, the outlook has materially changed. Instead of being content to wait for work to resume the men are becoming restless and are congregating at various places. Many of them are carrying arms. Several of the operators have tried to resume with nonunion men brought from Virginia and against these the feeling among the strikers is very strong. Large bodies of men, some of them armed, are marching up and down the valley and while committing no overt acts, are practicing virtual intimidation. A large body marched last night to North Fork with every seeming intention of violence but was revented by civil guards from doing any

situation." says the Governor. very serious, as the men have been long means of living and are evidently determined that no nonunion men shall work No outbreak has been committed, but there is no telling at what moment they may burn tipples and destroy railroad prop-erty. I have the situation thoroughly in hand and in case of outbreak feel able to give absolute protection to all. Special engines are in readiness to take troops to the field of trouble, and, owing to actual service last year, the troops are evidently well qualified for good service."

Situation at Pocahontas. BLUEFIELD, W. Va., July 6.-There is

nothing sensational in the condition of affairs at Pocahontas, Va. Major Simons reports that the coal companies there are working a large force and getting out more coal than at any previous time in the history of the operations. He reports that there was a great deal of disorder an frunkenness on the Fourth, and that the stration at the tunnels near the town. Fully ive hundred men attended this meeting. and it was with difficulty that the ble was averted between the strikers

says that in his unless Governor MacCorkle to Elkhorn, there will miners are reported lemoralized, hungry and desperate, sed to deter the workingmen from enter-Governor MacCorkle has been notified by the operators of the change of affairs, and a telegram came this evening to the local

dynamite in blowing up loaded cars has compelled the coal companies and railroad to increase their guards.

WAGES AT PULLMAN.

An Advance of 10 Per Cent. Granted About 4,000 Employes. CHICAGO, July 6.-The Pullman Palace

Car Company has advanced the wages of its employes at the Pullman shops 10 per cent., the advance affecting about four thousand people. No formal announcement ing effect in various departments at difassured its men last year, when the great occurred in one of the companies of the strike was ordered, that wages would go regular army, and Captain Miller made appermit, and that the present increase in salaries was simply the fulfillment of the promise made them. The advance, coming as it does, just a year since the railroads of the country were tied up in the effort to compel such an increase, is regarded by labor leaders as strange, but the officials of the company deny that any significance attaches to the date of the advance.

GLASS WORKERS.

Three National Conventions to B

Held This Week. PITTSBURG, July 6.- The three nations conventions of the glass workers meet or Monday; the window glass workers Pittsburg, the flints in Toledo, and the green bottle men in Montreal, Canada. An attempt is to be made in the window workers' organization to change the plan the grounds of complaint is that the organization loaned \$100,000 to manufacturers du ng the recent hard times. It is also stated that an attempt will be made to impeac factional fight. It is proposed that the con-vention shall ask for an advance in wages to restore the scale of 1893. The convention will also favor a differential in favor of Pittsburg against the Indiana manufactur ers, who have free fuel. It will also favor the abolishment of the 10-per-cent, differ-ential in favor of the Northern and Eastern convention the Knights of Labor and the fight for control of the glass workers. The old organization will be represented by Sovereign and Hays, and the new by Wilson and Pat McBryde. The scale for the Flints has been settled for this year, subject to the approval of the Toledo convention, but it is not anticipated that any change wi be made. The green bottle men, it is said will ask for an advance of 14 to 18 per cent An attempt will also be made to run a free silver resolution through this convention.

1,200 on Strike.

CLEVELAND, O., July 6.-The strike formidable proportions. Eighty galvanizers thrown out of employment thereby. strikers claim that the six hundred drawers of the Cleveland Rolling Mi drawers of the Cleveland Rolling Mill Com-pany will join them on Monday, but the officers of the company declare that they do not know of such intention. It is laimed, also, that the yard men, bu and laborers in the wire mills will enter

1,000 Thrown Out of Work. CHICAGO, July 6 .- A dispatch from Butte, Mont., says the extensive coal mines of the Anaconda company, in the town of Eelt, have been shut down without notice or explanation and nearly a thousand men are thrown out of employment. The town depends entirely on the coal mines. Unless work is soon resumed the place will be de-

ator R. S. Mitchell, of Coswell county, has suddenly and mysteriously disappeared from his home. He is said to be heavily involved, and is charged with misuse of trust funds. It is said that quite a number of attachments have been served on his property. Mr. Mitchell enjoyed the confidence of the community in which he lived to a very high degree, and was a man of very extensive affairs. His disappearance is a severe shock to the people of his section, and will involve many in flanancial distress.

WHITECAPPING "DOWN EAST."

Man Tarred and Feathered Because He Hired a Pretty Housekeeper.

CANTERBURY, N. H. July 6.-It leaked out here to-day that James Nudd, a railroad section hand, who lived in a farmhouse one mile from here, was tarred and feathered by "White Caps" before daylight yesterday. The participants in the affair are thought to be some of the most prominent residents of this vicinity, who have for some time expressed their disgust at Nudd's action in procuring a housekeeper, one of Canterbury's prettiest girls, who up to the time of her acquaintance with Nudd, was considered a model of propriety. This feeling culminated when it was learned that Nudd has a wife and family in Illinois. Early in the morning the band broke into Nudd's house and taking him out into the Nudd's house, and, taking him out into the yard, gave him a liberal coat of tar and feathers, and the spokesman of the White Caps gave the girl a lecture and took her to the home of her parents.

DRILLED IN THE MUD

RAIN MARRED THE CONTESTS AT CAMP HANCOCK YESTERDAY.

Four Infantry Companies of the Maiden Class Competed for Prizes -A Night Alarm.

ST. LOUIS, July 6 .- Rain fell last night and until noon to-day, converting Camp Hancock into a sea of mud. This was "Governor's day" at the camp, and, despite maiden class. Three prizes, aggregating \$2,250, were offeredd for the three bestdrilled companies in that class. The four companies entered contested in the following order: Bullene Guards, Capt. C. E Wagner, Kansas City; National Rifles, First Lieut. J. O. Manson, Washington, D. C. Phoneix Light Infantry, Capt. John A Miller, Dayton, O., and Company F. First Infantry, Missouri 'National Guards. Owing to the muddy condition of the drill under great disadvantages, but, considering the circumstances, they did fairly well.

This being Governor's day all the troops in camp were reviewed by Governor Stone, of Missouri, and the visiting magistrates of other States. Those who were present of other States. Those who were present included Governor Richards and staff, Wyoming; Governor S. A. Holcomb and staff, Nebraska; Judge Advocate-general Meany, representing Governor Werts, of New Jersey, and Covernor McIntyre and staff, of Colorado.

This evening after the sun had gone down and the camp was in darkness and supposed to be wrapped in slumber, th long roll was sounded and the troops were turned out to repel an attack. For half an hour or more there was a thrilling encounter between the soldiers of the sleep ing garrison and the attacking party. The on either side lent an air of reality to the affair that was pleasing to the spectators.

To-morrow, the last day in camp, when the announcement of the prize winners will be made, a man forward to with great interest by the competing companies, The programme for the day is as follows:

9 a. m., Guard mount; 10 a. m. to 12 noon, bands; 2 p. m. to 3:30 p. m., sacred concert 3:30 p. m., individual drill for four prize aggregating \$175 in value; 4 p. m. to 5 p. m., sacred concert; 5:30 p. m., dress parade and award of prizes; 6:30 p. m., farewell

Captain Deffrey, of the Neeley Zouaves of Memphis, has received word that he and his company have been dishonorably discharged from the Tennessee Nationa Guard for having participated in the dr here yesterday. They were not permitte to come here as a company, so they came as individuals and borrowed all their ac-coutrements and uniforms in St. Louis for drill. The justice of their dishonorable dis harge is being questioned. Capt. John A. Miller, of the Phoenix Light Infantry, of Dayton, O., received a letter from Capt. E. G. Wheeler, United States army, stationed at Washington. This letter states that a recent inspection of the files of the War Department has revealed the fact that Captain Miller had been given a commission as captain in the regular army by President Andrew Johnson in 186 The letter received was the first intimation ler, although the commi mssion was issued thirty years ago. Captain Miller was ser-geant major of the Eighteenth Ohio Infantry during the civil war, and was stationed matter to-day, said that the company had in Tennessee in 1865. While there a vacancy nore of it until yesterday, when he discovered that he had been a captain in the United States army for the past thirty

the companies in camp, Governor Stone and the visiting Governors and their staffs, was given this evening in the Jockey Clu house on the camp grounds by the sponso and maids of honor. The elite of the attended, as well as many of the ladies the officers. Governor Stone led the gran until a very late hour, was a great social success, and greatly enjoyed by all present

Neeley Zonaves Not Discharged. MEMPHIS, Tenn., July 6 .- Col. A. Taylor, brigadier general of the Tennessse National Guard, has no knowledge of the alleged dishonorable discharge of the Neeley Zouaves, of this city, because of their at-tendance upon the drill at St. Louis, mentioned in a dispatch from the latter city to-night. Such a step could not be taken without a court-martial, and it is said in National Guard circles that that measure has not been discussed.

SCREAMED WITH TERROR.

Alleged Murderers Forced to View the Body of Their Victim.

OMAHA, Neb., July 6 .- The four men and the Setian murder were forced to view the body to-day in the hope of making them talk. Thus far they have refused to talk, and their silence has confused the police The five were escorted into the rear room body of the dead man, and, without a ment's warning, they were brought was in the lead. He is the man who posed to have been the principal in me. As Setjan's discolored features eared before him Bukove broke down med with terror. He put both hands bbed in the most pitiful manner. Dr partially subsided he was led to the head of the cooling board and asked if he knew whose face it was that lay before him. He Mrs. James ish and her nine-n baby are in the murderers' cage of the county jail to-night, having been refused bail. She is charged with aiding her husband a month ago to kill Chapple, the Kansas City man, for the alleged reason that he made an effort to assault her.

CAUSE HAVOC AND LOSS OF LIFE IN MISSOURI AND KANSAS.

Little Town of Winona Almost Wiped Out by a Severe Storm and Cloudburst Friday Night.

ELEVEN PEOPLE DROWNED

VILLAGE OF BAXTER SPRINGS STRUCK BY A "TWIRLER."

ive People Killed and Twenty Wounded, Some Fatally-Sudden Rise of Streams and Rivers.

SPRINGFIELD, Mo., July 6 .- A storm, awful in its terror, and total in its work of destruction, wiped out the town of Winona, on the Current River branch of the Kansas City, Fort Scott & Memphis railroad, in Shannon county, at half-past 10 o'clock last night. It is known that eleven persons lost their lives and eight men are

missing. The dead are: REV. G. W. DUNCAN. MRS. G. W. DUNCAN MATTIE DUNCAN MRS. CRAWFORD. MARTHA, daughter of G. W. Duncan. CRAWFORD GERT. GEORGE NEVINS. NORMAN NEVINS. Little daughter of Lloyd Wright. MAGGIE CANNON. JOHN MORRIS.

MRS. NEVINS. The bodies of Rev. G. W. Duncan, his wife and daughter; George Nevins, Norma Nevins and the Wright girl were recovered, der dislocated and will probably die. M. B. ment was simply irresistible and many peo-

A rain, preceded by a flerce wind, set in at 9 o'clock last night. While the wind ceased the rain increased intensely until at 10 o'clock it became a warring tumult. At 10:15 four feet of water was on the streets, and fifteen minutes more buildings could no longer stand the strain and began to careen and go to pieces in the waters. Vivid flashes of lightning pierced the torrential downpour of water. Houses were smashed, and in the water were hundreds of men, women and children, dashed about like corks. It was like a shipwreck on land. Cries of terror and shouts for help from struggling humanity clinging to pieces of timber, made the scene one that baffled intelligent efforts to save the helpless. The strong current rushing down the ravine or valley carried many to higher land and places of safety. When the torrent had to a degree subsided, the men who had seen to their own families turned their attention togothers, and by 3 o'clock in the morning the worst was over. Those who had escaped stood shivering, without clothing or without an opportunity to dry themselves. When day dawned there was nothing of their houses in the town. There was no shelter, no food, and no clothing. As soon as the destroyed telegraph communication was restored, Mayor B. F. Evans telegraphed to this city for aid. To-night the inhabitants of Winona are scattered among farmhouses or have gone to neighboring

in all thirty buildings were destroyed. Among the losses are A. C. Carter's lumber building, \$3,000; Mrs. A. G. Scranton, millinery, building carried away, \$1,000; J. J. Bowen, three buildings carried away, \$2,-000: Church, Kissell & Co., lumber, \$1,500. The Barr Hotel, Petts House, Lewis House and Sills House were all carried away. The following individuals lost houses: Thomas McCord, William Howell, George J. Jordon, Wilson Randolph, John Norris, George Hayden, four houses, James Henley, Jacob Hilbert, Thomas Gailbreth, Lloyd Wright, Grandall Roberts, George Farris, Joseph Miller, Rev. W. Duncan, D. W. Van and Daniel Holmes. The total loss is not less

Rev. G. W. Duncan, who lost his life, was pastor of the Winona circuit, and was but recently ordained. He was formerly an engineer on the Iron Mountain railroad. The bodies of Miss Mattie Duncan and Mrs. Crawford were found at 4 o'clock this morning. The others were recovered long after daybreak. Some had floated three miles down Pike creek towards the northeast, in the direction of Current river. In places It is now known that Birch Tree, eight | swept away, and the water is the highest lost there, however. Cortez Fisher, lumper dealer, lost \$2,000 by the destruction of buildings. Other buildings were slightly damaged there. Winona, in point of population and busi-

ness was the most important town in Shannon county. Surrounding it are the fines; of the great pine trees of Shannon county. To the north, eight miles, the Current river flows northeast and then bends to the southeast, touching the Current River branch of the Memphis railroad at Chicope, a dozen miles east of Winona. Northeast and southwest of the town are hills. railroad follows a valley east and west and a deep ravine goes out northwest towards the river. Along the sides of this ravine or valley were clustered houses occupied by the families of the men who had been employed in the Ozark Lumber Comon the hills the water rushed down this ravine, carrying all before it. The railway was on a slight grade, but the track was torn up and residence houses and business buildings were swept along with it into the torrent. Church & Kissel had the large est general store, and the Missouri Land Company had one of their buildings near the railroads. Both suffered from the rush of the water. Winona, at the last town census, had 608 people.

Eight mles west of Winona was situated Birch Tree, next in size in the county, with terests and was a thriving place. On the morning of July 4 this town suffered from a downpour that was almost equal to a cloudburst. Great preparations had been made for a celebration, and a mammoth dir ner was spread under the trees. The storm row escapes from drowning. Again, late in the evening, there came another flood that was most disastrous in its results.

TORNADO IN KANSAS.

Five People Killed and Twenty More Seriously Injured.

BAXTER SPRINGS, Kan., July 6.-Bax ter Springs was laid in ruins, five people were killed and twenty others badly wounded by a tornado that struck the town about 6 o'clock last evening. Following are

SALLIE WEBSTER, aged seventy, killed. FLORENCE WEBSTER, aged thirty-six, RALPH WEBSTER, aged three, killed. THOMAS SHIELDS, baby, killed. H. HIBBS, killed.

JAMES NEAL, scalp wounds and interna

MRS. NEAL, both collar bones broker

ELLA SMITH, internal injuries. GEORGE A. DICKER, head injured. A. G. HANBACK, head injured. A. SHARP and FAMILY, three persons, MRS. THOMAS SHIELDS, living nine

les south, fatally injured

the north and the other from the west-

and they met near the Methodist Episcopal

Church, joined forces and turned east, do

ing serious damage to property before

meeting, and completing the destruction

after coming together. In the track of the

current from the north the passenger depot

was the first thing damaged. Further on

much damage was done to residence prop

erty and trees. The current from the west

seems to have been the stronger. It struck

some of the residences west of the freight

depot, doing serious damage, and when

it came to the yards of the railroad twen-

ty-eight freight cars were thrown from

the track, the depot moved on its founda-

tion, and its contents were badly flooded

by the downpour of rain which closely fol-

From the railroad track at the point of

meeting the other current the damage to

property was not so great. The first ob-

ject struck after the meeting was the M

E. Church. This was destroyed, and it lies

in a heap of ruins. The current turned

slightly to the southeast, doing a good deal

of damage until it reached a point just

west of J. M. Cooper's large store, where it

turned directly east, striking the store

building, caving in the west end and badly

damaging the roof. The store was fooded

and much damage was done to the goods.

The Christian Church was directly in the

path; it lies like a pile of kindling wood.

The Episcopal Church was not touched,

but the storm struck further up the street,

on the south side, and from there on not a

cently from Nebraska, the mother, aged

sixty; daughter, aged thirty, and the grand-

SMALL STILL THAT CANNOT BE DE-TECTED BY THE "SMELLERS."

Ventilation of War Ships Worrying the Navy Department-No Negro Colonists Killed in Mexico.

Special to the Indianapolis Journal. WASHINGTON, July 6 .- One of the surprising developments in connection with the enactment of the new tariff law is that the seizures of illicit stills for the past year have been far in excess of those for any year immediately preceding. For a number of years past the seizures have numbered about two hundred yearly, but since the new tariff law has been put into effect the seizures for the year have been over two thousand. This abnormal increase is undoubtedly due to the increase in the tax on whisky, which raised the existing tax from 90 cents a gallon to \$1.10 a gallon. Under The members of the Webster family, re- the old tax there was a premium of at least 400 per cent. for illicit distillers, but under the new order of things the government raised its bid and made it worth 500 per cent, to the lawbreaker. This inducemisery for the Commissioner of Internal Revenue. He knows, as do all his men, that there are illicit stills all over Brooklyn and New York and the very lowest esti-

The damage to property west of Baxter hundred stills operating in those places. Springs cannot be fully determined. It is Formerly all the secret stills were in the reported that, for many miles in the track Southern States, principally in the mounof the storm, fences and barns are blown tainous regions of Kentucky and the Carodown and crops more or less destroyed. The west part of Lyon township seems to have had a touch of perhaps the same many of the people in the cities are going twister that struck Baxter. It struck the farmhouse of Thomas Shields, of Lyon, denolishing his house and barns, Mrs. Shields and two children were in the building at the time of the storm. One of the children, a two-year-old babe, was killed; the other child's leg was broken, and Mrs. Shields little Bowery saloon, where the maker dis had her shoulder dislocated and is injured in her back and shoulder. She will die. One

mate given is that there are over two

or two other farms in the immediate vicintrees, etc., being blown down. W. L. Archlarge gain in the hidden manufacture Sheridan township. He left McCune yesterday afternoon about 4 c'clock, where he had had much to do with the against whisky making in the dark, the Kansas & Texas Coal Company, at dainty little thing and can be carried about until the mine was deluged with torrents and set up in any odd corner without concapes from drowning, but every mule in of gallons a day, and altogether has given ten decades. It does its work, moreover, without odor of any kind, and in this way further fatalities seem almost certain when hidden stills by their keen scent. Comm York and Brooklyn and sniff for ode they hold up a moistened finger, and by observing the slight chill upon the side of the finger to windward they note the direction of the wind, and by following this up they often follow a wee, little odor west, states that the Smoky Hill river, at that place, has overflowed its banks and on the south side extends nearly back to the bluffs, two miles distant. The water is have been taken out in boats. The apgenious New Yorker fooled the "revenues" off the abutments. Nearly all the wagon bridges across the river west of here are n the dairy and sent the product out to his

A number of stills have also been found located in sugar refineries, where they use out of, but it is cheap, and whisky, or, at gallon, 90 cents less than the legitimate maker pays for his license on the same of Internal Revenue it is estimated that at east two thousand secret stills are runni this country at the present time, is estimated that over four mill callons of untaxed spirits have been made

FANS FOR WAR SHIPS.

Better Ventilation. WASHINGTON, July 6. - Commander Bradford, of the inspection survey board, has been chairman of a sub-board which ing war ships. This has become a very navy and several different plans have been suggested. The fresh air is pumped in and

the foul air pumped out by fans, this be continued till midnight, when the water works pumps were started again, and are ing found the best practicable method. The motive power for these fans is one that has caused considerable discussion. A steam pipes and the large openings through the bulk heads and saves space in the apartment where the fan is operated as the motor takes up much less room than an Partial reports received at the Navy Derey and the Amphitrite are very gratifying

ing made. The Monterey, while designe for coast defense and harbor work, has way perfectly seaworthy. She is not was also found that she was much ortable for her officers and crew the supposed, and the temperature of he cabins was not as high as was expe be sent again on so long a cruise as sh has just taken unless in case of great emergency, but it is likely that she wi stay in the vicinity of San Francisco at
